Make your photos look their best

- Experiment with easy-to-use compositing tools that let you create perfect group photos, seamless panoramas, and more.
- Easily make adjustments to color, lighting, and exposure. Convert color originals to rich black-and-whites; fine-tune color, brightness, and contrast; and get the highest quality results by editing the raw image files from your digital camera.
- Easily brush away wrinkles and unwanted objects using the Spot Healing Brush for instant results and the Healing Brush for finer control. Now when you use the Healing Brush, you can take advantage of visual guidance from an overlay that makes it easy to get the results you want.
- Make image selections in seconds so you can easily adjust specific areas of a photo. Simply brush your selection, and then use sliders to make the selection blend perfectly with the background.

Do more with your photos

- Easily make photo creations like scrapbook pages, cards, and CD/DVD labels. Simply choose the type of item you'd like to make and the appropriate tools and instructions will appear at your fingertips.
- Find inspiration in professionally designed, color-coordinated layouts that make it easy to put together great photo creations in minutes.

Or spend a little more time and customize all the elements of your chosen layout.

- Easily upload photos and order professional-quality prints, photo books, and more. (Services vary worldwide.)
- Quickly and easily share your photos on the web, via e-mail, and on CD or DVD.
- Easily upload your photos to a personal online album. Friends and family can view your photos and instantly order prints.

Easily find and view your photos

- Quickly transfer photos from your digital camera's memory card to your computer so you can get back to taking photos sooner. Automatically copy photos to your preferred storage area, rename photos as they download, and even automatically tag photos with your name and copyright.
- Easily tag photos with keywords that represent people, places, or events. You can instantly view every photo you've ever taken of your family pet, for example, by simply clicking on its tag.
- Group related photos into stacks to find what you need faster and reduce clutter.
- View your photos just the way you want to by creating and saving your own custom viewing workspace.
