5. As a result of taking the course, *do you feel that your photography has improved?*

Yes       No

6. Please use the space below to make any additional comments about the course. I am particularly interested in learning what you think could have been improved, added, removed. Did I miss covering a certain topic? Did I cover certain topics too little or too much? What you liked the best, the least, etc.  
*(This one's optional, but it's THE most important question!)*

7. I am interested in continuously improving my technical training AND writing skills. I would be very grateful if you would point out where I excel and where I can stand some improvement in how I present technical material. *Do I present clearly? Do I talk too fast, too slow? (Again, this is optional, but would be very helpful.)*

**STRICTLY OPTIONAL:** Please enter your contact information. Your information will not be divulged. I may send occasional emails connected with this class and topic.

## You're Done! Thanks for Taking The Class Survey

Remember: your photography will improve as long as you keep shooting. Practice the techniques and analyze your results. I have also found it enormously helpful to study other people's work.

***Happy shooting! I hope to see you again in a future class!***
